# WELCOME — YOU MADE THE RIGHT CALL

---

Congratulations on getting access to Delta AI. You've just plugged into the most powerful done-for-you automated commission system available today.

I put this guide together because the first 7 days are critical. Most people who don't see results from systems like this fail for one reason — they get access and then don't know exactly what to do first.

This guide eliminates that problem entirely. Follow these steps in order and by the end of Day 7 you'll have a fully activated AI commission system running on complete autopilot.

**IMPORTANT:** Don't skip steps or try to rush through this. Each step builds on the last. The people who see results fastest are the ones who follow the process exactly as laid out here.

## ■ DAY 1 — Get In, Get Set Up, Get Live

### Step 1: Log into your Delta AI dashboard

Use the login credentials from your purchase confirmation email. Bookmark the dashboard URL — you'll be visiting it regularly.

### Step 2: Complete your profile setup

Fill in all the required fields in your account settings. This takes about 5 minutes and unlocks all features.

### Step 3: Watch the orientation video

James has recorded a short walkthrough of the entire dashboard. Watch it all the way through before doing anything else. It will save you hours of confusion.

### Step 4: Choose your first stealth funnel

Browse the available done-for-you funnels and select one that resonates with you. Don't overthink this — they all work. Pick one and commit to it.

### Step 5: Hit deploy

This is the moment. Click deploy and let the AI activate your funnel. The whole process takes about 90 seconds. Congratulations — you now have a live commission generating system.

## ■ DAY 2 — Understand What's Happening

### Step 1: Check your dashboard stats

Log in and review your initial metrics. Don't panic if you don't see commissions yet — the system needs 24-48 hours to fully warm up.

### Step 2: Review the traffic settings

Delta AI has a built-in traffic engine. Make sure it is activated and running. Check the traffic section of your dashboard and confirm everything is green.

### Step 3: Read through the training materials

Delta AI includes training resources. Spend 30-45 minutes going through the core training so you understand how the system generates commissions.

## ■ DAY 3 — Optimize and Expand

### Step 1: Review your Day 1 funnel performance

Check the stats on the funnel you deployed. Note the click through rate and any early commission activity.

### Step 2: Deploy a second funnel

Now that your first funnel is running deploy a second one. Having multiple funnels running simultaneously multiplies your commission potential.

### Step 3: Explore the OTO upgrades

If you haven't already reviewed the upgrade options inside Delta AI now is a good time. The Done For You upgrade in particular can significantly accelerate your results.

# DAYS 4-7 — MONITOR, SCALE, AND WIN

---

By Day 4 your system should be generating activity. Here is your daily routine for Days 4 through 7:

## ■ Day 4

- Log in and check your commission dashboard
- Note which funnels are performing best
- Deploy one additional funnel if you haven't already
- Engage with the Delta AI community for tips and support

## ■ Day 5

- Review your traffic stats and commission totals
- Check your email for any notifications from Delta AI
- Watch one of the advanced training videos
- Consider upgrading to the unlimited funnels option if you haven't

## ■ Day 6

- Run a full performance review of all active funnels
- Identify your top performing funnel
- Allocate more resources to your best performers
- Plan your Week 2 scaling strategy

## ■ Day 7

- Celebrate your first week
- Document your results — commissions earned, funnels running, traffic generated
- Set your Week 2 goals
- Reply to my email with your results — I want to hear how you're doing

**Remember — you have 30 days of personal email support from me. If you get stuck at any point email [seth@dailycommissioncode.com](mailto:seth@dailycommissioncode.com) and I will personally help you through it.**
