# WHY EMAIL MARKETING MULTIPLIES EVERYTHING

---

Delta AI is already generating commissions for you on autopilot. That's powerful on its own. But here's something most people miss — when you layer email marketing on top of Delta AI you multiply your results dramatically.

I've been building part time income online since 2007 and the single most important thing I ever did was build an email list. Here's why:

## ✓ You own it forever

Social media accounts get banned. Ad accounts get suspended. Algorithms change overnight. Your email list belongs to you. Nobody can take it away.

## ✓ Every subscriber is a future commission

The industry benchmark is \$1 per subscriber per month. A list of 1,000 subscribers generates roughly \$1,000 per month. A list of 10,000 generates \$10,000 per month.

## ✓ It runs on autopilot

Write your emails once. Load them into an autoresponder. They go out automatically to every new subscriber forever. You write it once and it earns repeatedly.

## ✓ It compounds over time

Every day your list grows. Every day your potential income grows. The effort you put in today keeps paying you for years.

**The combination of Delta AI generating daily commissions PLUS an email list promoting those same offers is how regular people build \$5,000 to \$10,000 per month part time online income.**

# THE 5-STEP EMAIL PROFIT SYSTEM

---

## STEP 1 — Choose Your Email Platform

The tool that stores your subscribers and sends your emails automatically is called an autoresponder. I personally use and recommend AWeber — it's beginner friendly, has excellent deliverability, and is trusted by over one million businesses. Get started at AWeber.com. Plans start at around \$20 per month for your first 500 subscribers.

## STEP 2 — Create A Simple Squeeze Page

A squeeze page is a single web page with one job — capture an email address. It has a compelling headline, a few bullet points explaining what the visitor gets, and an opt-in form. Nothing else. No navigation. No distractions. Just the opt-in. Tools like OptimizePress make building these simple even with zero tech skills.

## STEP 3 — Create A Lead Magnet

A lead magnet is something you give away free in exchange for an email address. It doesn't need to be complicated. A simple PDF report, a checklist, or access to a short video works perfectly. The key is that it's relevant to what your audience wants — in our case anything related to making money online or generating income with AI.

## STEP 4 — Write A Follow-Up Email Sequence

Once someone opts in your autoresponder sends a pre-written series of emails automatically. These emails deliver value, build trust, and promote your affiliate offers — including Delta AI. A simple 7-day sequence is enough to get started. Write it once and it runs forever.

## STEP 5 — Drive Traffic To Your Squeeze Page

This is how your list grows. Every visitor to your squeeze page is a potential subscriber. Traffic sources include solo ads — which are the fastest way to build a list quickly — as well as free sources like social media, YouTube, TikTok, Pinterest, and blogging. Start with one source and

master it before adding others.

# PROMOTING DELTA AI TO YOUR EMAIL LIST

---

Once you have an email list Delta AI becomes even more powerful. Here are the most effective ways to promote it:

- **The Personal Endorsement Email:** Write a personal email sharing your own experience with Delta AI. Talk about why you use it, what results you've seen, and why you recommend it. Personal endorsements consistently outperform generic promotional emails.
- **The Proof Email:** Share the specific numbers from the Delta AI sales page — the \$820.45 daily figure, the 6,134 users, the 3-click simplicity. Numbers are credible and compelling.
- **The Story Email:** Tell the story of someone who was struggling before Delta AI and is now generating daily commissions. Stories connect emotionally in a way that facts alone cannot.
- **The Comparison Email:** Compare Delta AI to other systems your subscribers may have tried. Show why Delta AI is different — done for you funnels, built-in traffic, no monthly fees, \$17 price point.
- **The Urgency Email:** Create urgency around the \$17 price point. Remind subscribers that this promotional pricing won't last forever and encourage them to act before it increases.

**SETH'S TIP:** The most profitable thing you can do right now is start building your email list simultaneously with running your Delta AI funnels. Every subscriber you add today is a future commission. Start today even if you start small.
